

## Important Information Regarding Assessments, Referrals, and Follow-Ups

### 1. ADHD and ASD Assessment

The assessment process consists of three sessions:

- **Session 1:** General psychiatric assessment
- **Session 2:** Focused ADHD/ASD assessment
- **Session 3:** Psychoeducation, medication registration, and prescription

*Please note:* Patients undergoing an ADHD assessment must provide a negative urine drug screen along with their referral. (*Fee schedule attached.*)

### 2. Psychotherapy Referrals

Psychotherapy referrals must be accompanied by a psychologist's referral. Additionally, patients are required to have a separate psychiatrist for medication reviews. (*Fee schedule attached.*)

### 3. Eating Disorder Management Plan

- The initial management plan (Item 291) costs \$800
- Reviews are required every six months (Item 293, for sessions exceeding 45 minutes) and cost \$550

### 4. Medication Prescriptions

Medication prescriptions outside of regular review appointments will be provided in a dedicated 15-minute session. (*Fee schedule attached.*)

### 5. Report Writing

Reports for DSP, NDIS, medicolegal cases, or workers' compensation will be completed based on complexity. (*Fee schedule attached.*)

### 6. Follow-Up Appointments

Patients who do not attend a follow-up for more than six months will require a reassessment of their treatment plan. (*Fee schedule attached.*)

Although we strive to provide thorough follow-ups, it is ultimately your responsibility to attend scheduled appointments and book necessary follow-ups. If you choose to seek medical care at another clinic, we respect your decision. However, you must attend a wrap-up session to facilitate a smooth transition of care to your general practitioner or the next specialist. Failure to do so is solely your responsibility, and we cannot be held liable for any resulting consequences.
